

### 1 GARBAGEBOX, 33.4

A bigger litter bin with gable roof for a content of 120 litres. Dimension 565x565x1100 mm. This box goes well with our bench series 38.0, described on pages 154/155.

The box consists of a hot dip galvanized steel robust welded construction. The front can be opened with a triangular key.

### 2 "MACINA"

A 150 litre litter bin with a modern "trunk-conical" line. The "Macina" model litter bin has been designed to facilitate the easy removal of rubbish by the operators. The container and lid are in galvanised sheet steel and cut using innovative laser technology. The domed lid is round and is provided with a hole measuring approximately Ø 150 mm, created to place the rubbish in the bin without lifting the lid. The key to access the bin will be supplied exclusively to the operators. It is also available with a bag holder in steel rod and suitable hooks to fasten the bag itself. It is also available in a flanged version or with a semi-spherical concrete base. Additional charge for powder coating framework in a standard RAL colour: RAL 1007: daffodil yellow, RAL 3000: fire red, RAL 3005: wine red, RAL 4004: violet bordeaux, RAL 5013: Cobalt blue, RAL 6009: pine green, RAL 6005: moss green, RAL 6029: mint green, RAL 7016: anthracite grey, RAL 9005: deep black, RAL 9007: grey aluminium.

### 3 "BLOB"

Essential and elegant, a 65 litre capacity rubbish bin which can be placed in every architectural, historical and modern context.

It has a double function: rubbish bin through a doubled hole and ashtray equipped with independent container.

The framework is made of galvanized, shaped and roller levelled sheet 30/10 mm using innovative laser technology.

The removal of rubbish is facilitated by the opening of the container with appropriate sliding guides.

It is available with panels for advertising.
