

Triangle Shelter

The triangle design is an ideal urban cycle parking, smoking or waiting shelter solution.

It brings the familiar design led 'triangle' theme to the forefront with the use of a range of materials including stainless steel and powdercoated galvanised steel with roof cladding options of aluzinc or safety glass.

As with all Falco products, the aesthetic strengths of the design are matched by high functionality. The canopy incorporates integrated gutters with rainwater being channelled inside the structure and discharged at ground level.
