

Falcoflex Bicycle Stands

The FalcoFlex is a flexible alternative to both the Sheffield stand and the FalcoToaster. Manufactured from robust modular steel tubes, the FalcoFlex with its infinite array of designs enables two cycles to be parked at each stand.

The 'waveform' arrangement of the stand enables designers to create straight or curved patterns.

Manufactured from Ø48mm tube modules; top, bottom and end - typically the FalcoFlex is mounted at 700mm between 'peaks' but this can be varied.

Product Details

- Galvanised bicycle rack for surface mounting
- Tube diameter 48mm. Mounting at 700mm between peaks
- Available in a powder coated finish to any RAL colour
