

Toaster Bicycle Stands

The FalcoToaster, mounts rows of Sheffield stands on a purpose built frame creating a 'toast rack' effect. This is a great option for temporary installations or where digging up the floor is not appropriate

The standard toaster stand for bolting into concrete is available in a tube diameter of 60x2 mm, total height 900 mm, width 900mm centre to centre.

Each upright is 750mm centre to centre per parking space

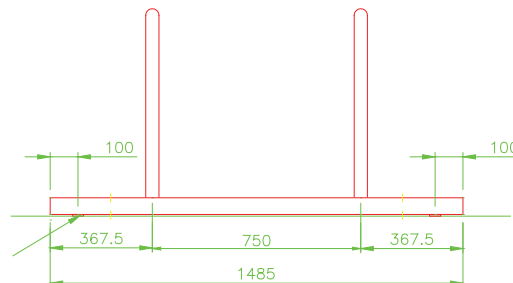

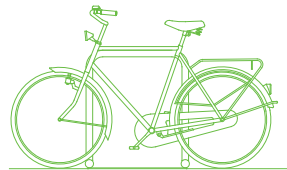

The bicycle rack is available in different lengths and tube sizes according to your requirements.
